Quality Consistency And Research & Development

It is essential for a manufacturer to have a proper laboratory setup, to assure quality consistency and research & development for product continuous improvement. In addition, with ISO 17025 accreditation that enhances the laboratory with competency, accuracy and traceability. Wonway is proud to say we are one of the few or the only one in Malaysia accredited with some rare testing scopes. Our scopes cover both ESD and Contamination Control are essential for testing on our range of products. Besides our selective test methods are accordance to ANSI/ESD S20.20 and IEST ISO 14644.

ANSI / ESD

- ✓ Surface resistance test
- ✓ Sleeve to sleeve resistance test
